Regarding Use of This Guide

- This guide is intended for users of DOCOMO mobile phones with a DOCOMO UIM Card (or otherwise a FOMA Card or DOCOMO mini UIM Card. Hereinafter the same applies).
- If the SIM lock system of a DOCOMO mobile phone is disabled and a non-DOCOMO SIM card is inserted, the services described in this guide will not be available. If a DOCOMO UIM Card is used for a non-DOCOMO mobile phone, some of the services described in this guide may not be available.

*In this guide, the term "FOMA or Xi" refers to a FOMA or Xi handset in which your DOCOMO UIM Card is inserted. *The operational procedures cited in this guide cannot be used when the phone is out of service range. *Android is a trademark or registered trademark of Google Inc. *The names and logos of services and products included in this publication are the trademarks or registered trademarks of their respective owners.

Reports call history when the handset is turned off or out of range—and when you are on the line

Missed Call Notification Service

Application: Not Required

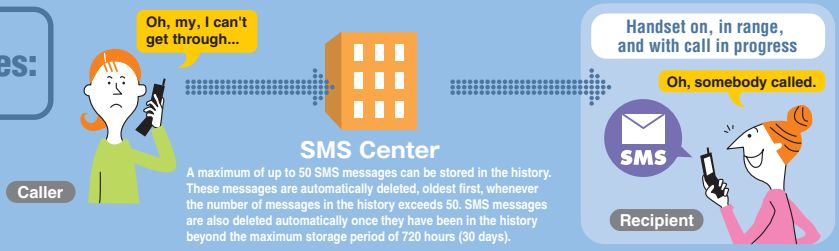
Monthly Charge: Free

*For more details, refer to "Charges" on p. 3.

This function provides the user with Short Message Service (SMS) notifications of missed incoming calls, with the caller's number and date and time of the call, received while the handset was turned off, out of range, or being used for another call.

*As of October 3, 2011, the "Turned Off or Out of Range Notification Call Service" has been renamed the "Missed Call Notification Service."

Uses:



Oh, my, I can't get through...
Caller
SMS Center
A maximum of up to 50 SMS messages can be stored in the history. These messages are automatically deleted, oldest first, whenever the number of messages in the history exceeds 50. SMS messages are also deleted automatically once they have been in the history beyond the maximum storage period of 720 hours (30 days).
Handset on, in range, and with call in progress
Oh, somebody called.
SMS
Recipient

Service Features

You can check a caller's phone number and incoming call date on the SMS Caller ID Screen.

Notification of calls received while the handset was turned off or out of range are sent once the handset is turned on again or is once more within range. If a call is received while the phone is in use*, the notification of the incoming call is sent while the phone is still on the line.

*No SMS notification is made when calls are recorded as missed, even when the call is received while the phone is in use.

Reports are made while this feature is activated, even when the SMS Refusal setting (all SMS rejected/ SMS without Caller ID rejected) is active.

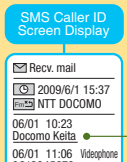
[With smartphones (only models running AndroidOS)]

Use the following procedure to make the settings. *Procedures may differ depending on handset.

●From the Handset Screen

Select "Settings." → Select "Call settings." → Select "Network service." → Select "Call notification."

About the Short Message Service (SMS) Caller ID Screen Display



If registered in the Phonebook, the registered name is indicated.*1
If not registered in the Phonebook, the caller's number is indicated as is.

*1 On certain models, the caller's number is shown.

Do Not Display: Transmissions carried as voice calls
Videophone: Transmissions received as Videophone calls

*On some models, SMS message titles such as "Missed call notification" or "Noticecall voicemail" appear on the screen.

● Actual screen may be different.

Activating the Call Notification

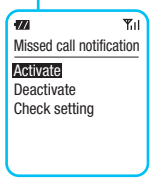
- **At the time of subscription, the Incoming Call Report function is set to notify you of all incoming calls; however, call reports are not made while the Call Forwarding Service is activated.**
- **Reports are made while this feature is activated, even when the SMS Refusal setting (all SMS rejected/ SMS without Caller ID rejected) is active.**

*Reports may not be made immediately in some cases.
*Communications charges do not apply for a notification made with this function.

From the Handset Screen

● These settings cannot be made from the handset screen on models prior to the 901i series. Please refer to the sections on Using the Dial Pad.

1



Display the "Missed call notification" menu, and select "Activate."

*On some models, this item is on the "Voice mail" menu.

2

The display switches to the "Activate" screen.

Select "For all calls" or "For calls with caller ID." Then the confirmation screen will appear, select "YES."

3

The results of your setting appear.

If the setting is successful, "Missed call notification activated" will appear. This completes the setting.

Using the Dial Pad

1 Press ✱ 2 0 0 1 ☎

Announcement

"The service to inform you of incoming calls while you are not reachable is..."

2 Press 1

Announcement

"Caller number cannot be presented when the call is set by the caller..."

3 1 (All incoming calls reported)
0 (Only incoming calls with caller's number reported)

Press one of the numbers to set the calls you want to be included in the report.

Announcement

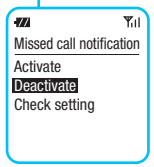
"According to the setting you have now selected, the arrival of all incoming calls will be notified regardless of availability of Caller ID. If you want to..."

4 Press # ☎ to finish.

Deactivating the Call Notification

From the Handset Screen

1

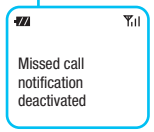


Display the "Missed call notification" menu, and select "Deactivate."

When the confirmation screen will appear, select "YES."

*On some models, this item is on the "Voice mail" menu.

2



The results of your setting appear.

If the setting is successful, "Missed call notification deactivated" will appear. This completes the setting.

Using the Dial Pad

1 Press ✱ 2 0 0 1 ☎

Announcement

"The service to inform you of incoming calls while you are not reachable is..."

2 Press 0

Announcement

"The service is deactivated."

3 Press ☎ to finish.
